around you are protected!

### OptiClean™ Negative Air Machine and Scrubber + ActivePure Photocatalytic Oxidation Technology

017 SPACE TECHNOLOGY HALL OF FAME INDUCTEE  
PROUDLY DESIGNED, DEVELOPED AND ENGINEERED IN THE USA

#### WARNING

##### PORTABLE UNIT AND METAL SHARP EDGES HAZARD

Failure to follow this Warning could cause personal injury or death. This unit must be used in a location where unsupervised children are not allowed to play. The unit is portable, and areas inside and under the unit could cause personal injury. If the unit is used in a horizontal configuration, physical barriers must be installed around the unit to prevent unauthorized access.

#### ABOUT THE NEGATIVE AIR MACHINE/AIR SCRUBBER

The OptiClean™ is a portable solution primarily designed to help convert normal hospital rooms into Airborne Infectious Isolation Rooms (AIIR). Designed to ASHRAE's Standard 170 for Ventilation of Health Care Facilities, the OptiClean™ uses highly efficient filters and a heavy duty, to remove contaminated air from the room. The resulting negative air pressure, or "vacuum effect," helps limit the spread of air-based contaminants into surrounding areas.

If negative pressure is not required, such as in an open-air temporary hospital, business or home, the machine can be used as an air "scrubber," pulling air in, removing many contaminants, and discharging cleaner air back into the room. The OptiClean™ negative air machine features:

- 99.97% efficient long-life HEPA filter removes particles as small as 0.3 microns
- Standard MERV 7 pre-filter
- Nominal 500 CFM
- According to ASHRAE Standard 170: Ventilation of Health Care Facilities
- Vertical design for smaller footprint, and can be mounted and operated horizontally when necessary
- Portable and adaptable to nearly any location
- Heavy duty locking casters for easy and smooth transport
- HEPA filter rack and sealing design meet air leakage requirement
- Red lighted indicator to alert user when filters are overloaded (generally means pre-filter requires replacement)
- Green ON/OFF switch illuminates to verify when running
- 3 meters long power cord with strain relief
- Power cable access from rear of the unit
- Type G plug optional
- 230V / 1Ph - 50 / 60Hz
- Galvanized steel, powder paint cabinet is fully insulated
- Exhaust transition plate to standard

#### A NOTE ABOUT SAFETY

Any time you see this symbol in manuals, instructions and on the unit, be aware of the potential for personal injury. There are three levels of precaution:

**DANGER** identifies the most serious hazards which will result in severe personal injury or death.

**WARNING** signifies hazards that could result in personal injury or death.

**CAUTION** is used to identify unsafe practices which would result in minor personal injury or product and property damage.

**NOTE** is used to highlight suggestions which will result in enhanced installation, reliability, or operation.

#### WARNING

##### PERSONAL INJURY OR PROPERTY DAMAGE HAZARD

Failure to follow this warning could result in personal injury or property damage. Improper installation, adjustment, alteration, service, maintenance, or use can cause conditions which may cause personal injury or property damage.

Consult a qualified installer or your distributor for information or assistance. Read and follow all instructions and warnings, including labels shipped with or attached to unit before operating.

# INDUCT 2000

## INTENDED USE

ActivePure® technology that attaches directly to the HVAC system ductwork to remove air pollution, VOCs, surface contaminants, pet dander, odors and dust, resulting in a cleaner, healthier and more efficient home. The perfect solution for homeowners and businesses who want to reduce and eliminate harmful contaminants.

## BENEFITS

- ActivePure® Technology removes or destroys up to 99% of all surface and airborne contaminants
- Significantly reduces dust, pet dander and odors in the home
- Purifies air, removes VOCs, and significantly reduces odors
- Protects people from dangerous contaminants and pollutants, and protects heating and cooling system from dust buildup
- Creates healthy, pure indoor spaces
- Available in ozone and ozone-free models
- Coverage up to 3000 sq. ft.

## HOW IT WORKS

- Our proprietary ActivePure® Technology uses light waves and a catalytic process to produce super oxide ions and hydro peroxides that destroy contaminants on surfaces and in the air
- Certified Space Technology continuously protects and purifies the air around you, and attacks contaminants on all surfaces
- ActivePure® has been tested in independent labs and proven effective on bacteria, viruses, mold and fungi on surfaces and in the air
- Installed by a professional directly to the existing HVAC system ductwork

017 SPACE TECHNOLOGY  
HALL OF FAME INDUCTEE

PROUDLY DESIGNED,  
DEVELOPED AND  
ENGINEERED IN THE USA.

The ActivePure® Technology built into each INDUCT 2000 is based on a variation of the technology originally developed for use on the International Space Station and is recognized as the exclusive Certified Space Technology™ in its category.

## PATENTED CELL DESIGN

Scientific tests have demonstrated the use of Sani Active Surface and Air purifiers substantially reduce microbial population on surfaces. Our Products are not a medical devices and are not intended to diagnose, treat or cure any disease.
